ज्योतिर्मय

Dear Reader,

Jyotirmay is a labour of creative minds, artistic skills, hard work and commitment. I am proud of my Editorial Team for their dedication towards the creation of the magazine for the year 2023-2024.

Jyotirmay provides a glimpse into the academic, co-curricular and sports activities provided to the Garodians through the year. Young bards, the ink of your writing has left an indelible mark on my heart and mind. Every creative pursuit finds space to express themselves, develop writing skill and thereby connect with the peers. It pains the Editorial team when a certain article is rejected for digressing from the criteria – faulty vocabulary, plagiarism and not following the rubrics. But, the show must go on...

'Don't watch the clock; do what it does. Keep going', Before I say 'Sayonara' to you, let me take a moment to gush over the 'art on display' on the cover pages of Jyotirmay. Brilliant! Remarkable! Way to go, Garodians! Looking forward to more 'creative pursuits' for...

'Creativity lies within you – the more you use, the more you have'.

Be Kind to all and stay safe.

Yours truly,

Deepa Chandran

We seek to make our students :

- Value humanitarianism
- Comprehend the rich diversity of mankind
- Help foster civic-mindedness
- Inculcate national and cultural identity
- Promote healthy sportsmanship
- Conscientious global citizens
- Attain, acquire, aspire and achieve the set goals
- Develop into resilient, adaptable, compassionate human beings
- Active and diligent learners who contribute to the peace of the world

Our Mission

Our Vision

A Global society with intellectually, viable and capable young creative minds, in healthy bodies with ethical spirits, to contribute wisdom, compassion and leadership. An academic foundation that encompasses cultural, social, historical and physical understanding that prepares students to become innovative, principled and insightful leaders to make the world a better place to live in.

From the desk of the Managing Trustee

Education is a powerful force for transformation – it has the ability to shape and elevate the dreams and aspirations of every child.

In a world marked by constant change in family dynamics, societal structures, and global challenges, a high-quality, well-rounded education is vital to a child's growth and development.

At P. G. Garodia School, we take immense pride in offering a forward-thinking, skill-based, and student-centered curriculum that nurtures critical thinking, celebrates diversity, and builds confidence. This approach is crafted to unlock the true potential of each student, fostering both academic excellence and emotional well-being.

Here, education is not a challenge, but a journey of joy, curiosity, and discovery.

Our holistic educational experience integrates a dynamic blend of Academics, Co-curricular activities, STEAM, Sports, Performing Arts, and more. This synergy creates an engaging and unforgettable learning environment that leaves a lasting impact on our students.

Our vision for education is continuously advanced through the ongoing refinement of our teaching methods. Together, the management, teachers, staff, and students collaborate to maintain a safe, supportive, and enriching environment where every child can thrive and reach their fullest potential. These students are not just learners; they are the trailblazers of tomorrow.

We are dedicated to opening doors to excellence, and we take great pride in the achievements and accolades earned by our students, year after year, as they continue to set new benchmarks of success.

Nishant Garodia

From the desk of the Principal

Dear Parent, students and well wishers,

As we embrace a new season of learning at P. G. Garodia School (ICSE), let us take a moment to reflect on our journey together and share exciting development of 2023-2024.

In this new era of education, which extends beyond academics, we are fostering the culture of inclusivity, empathy and collaboration. Our students at P. G. Garodia School (ICSE) are not passive learners. They are active participants in shaping the educational journey. Their creativities and determination inspire us all.

In this evolving landscape we have witnessed that our students and parents embraced changes with enthusiasm and resilience i.e. from adapting project based learning, hands on work, bagless day activities, IAYP, joy of sharing, beach cleaning, canteen day, and Raas Ramjhat that emphasis on critical thinking ,collaborate and learning beyond books. These programs impacted our young minds and proving that voice and contribution matters. These activities were designed to enhance our students learning experience and prepare them for 21st Century skills.

We also focused on social and emotional quotient of our students through mental health week program, visit to cancer hospital, 'Joy of Sharing' program and visit to differently abled children's school. These programs helped our children to be socially responsible and self-aware

As we navigate challenges together, the importance of mental health and well-being has never been more critical. We implemented various programs for students' emotional and mental well being.

In our new curriculum, extra-curricular activities align with skills needed for future. Our focus is on STEAM Education along with integration of environmental studies We prepare our students to be thoughtful and innovative leaders who can take the challenges of tomorrow.

As we go down the memory lane of 2023-2024, my heart is filled with sense of gratitude for our teachers, parents, students and management. Our P. G. Garodia family worked together, seamlessly and left no stone unturned to offer multiple opportunities for the growth of our students.

Aristotle said," A committed and supportive management, dedicated teachers, caring and cooperative parents blend harmoniously to create a child centered school. "

P. G. Garodia School is a perfect example of it. Our school is symbol of progressive and quality education. In today's frantic world, adaptation is key for success. Our approach to education aims to equip our children with tools. They need to navigate the challenges of the moderate world with confidence and resilience. We engage our children in a variety of extracurricular activities to cater the individual interest and talent.

Overall activities and achievements are beautifully captured in our Annual Magazine. Through this Magazine you all will see the creative pursuit of our students which develops in their originality of thoughts. The content of the magazine reflects the wonderful academic results, activities, thoughts and perspectives of our young learners.

So my dear Young Garodians, be the shining stars .

Happy growing up!!

Ragini Malhotra

From the desk of the Headmistress

Life is a continuous journey of learning, where every moment presents us with valuable lessons that shape our experiences and self-improvement. In today's age, technology plays a pivotal role, yet we must be cautious not to become enslaved by it. Many students now rely heavily on various digital platforms, often neglecting critical thinking, book references, and their innate knowledge for assignments. This dependence can lead to challenges; for instance, misplacing a mobile phone may hinder communication in emergencies, as we've seemingly forgotten vital contact numbers that we once knew by heart. Therefore, it's essential to harness technology as a tool for our growth while maintaining our independence. By doing so, we can ensure that we remain a step ahead, using advancements to enhance our lives rather than surrendering ourselves entirely to them.

As parents and educators, it is our responsibility to instill essential values in our children, helping them appreciate relationships, friendship, and teamwork. By cultivating these habits, we guide them through their innocent and naive years, serving as pillars of support on the path to their future. It's crucial to invest time in their development while allowing them the space to grow from budding individuals into confident, compassionate adults. Our school is dedicated to this mission, emphasizing holistic development that encompasses both academics and extracurricular activities. Through carefully planned events and initiatives, we aim to nurture every student's potential, ensuring they become well-rounded individuals ready to navigate the complexities of life with emotional intelligence and integrity. Together, we can empower our children to thrive and make meaningful contributions to the world around them.

Dear children, I want to remind you that you possess all the strength and resilience you need to face whatever challenges life brings your way. Embrace who you are, for it is your uniqueness that truly sets you apart from others. The more you appreciate and love yourself, the more confident you will become, allowing your individuality to shine brightly in a world that often tries to mould us into something we are not. Remember, being different is a gift; it fosters creativity, innovation, and connection with those around you. So, celebrate your uniqueness and trust in your ability to navigate life's obstacles. You have within you an incredible power to create a life filled with joy, love, and authenticity.

The P.T.A. (2023 - 2024)

The PTA continues to strengthen the bond between parents and teachers, creating an environment that is collaborative and fosters the growth of students. We thank the PTA for their support and look forward to more fruitful endeavors together.

The Office Bearers of the PTA Executive Committee:

Chairperson : Ms. Ragini Malhotra

Vice-Chairperson : Ms. Aparna Jagasia

Secretary (Teacher) : Ms. Baljinder Kaur Grewal

Joint Secretary (Teacher) : Ms. Havisha Obhan

Joint Secretary (Parent) : Dr. Anjali Dalal

Management Representative : Mr. Chirag Mehta

Parent-Executive Committee members (ECMP):

Grade 1 - Ms. Sneha Savla

Grade 2 - Mr. Sagar Panchamia, Mr. Ravindra Jain

Grade 3 - Mr. Suhas Barve, Ms. Dipti Kumar

Grade 4 - Ms. Dimple Dave

Grade 5 - Ms. Moni Shah, Dr. Anjali Dalal

Grade 6 - Ms. Aparna Jagasia

Grade 7 - Ms. Radhika Joshi

Grade 8 - Mr. Deepesh Mehta

Grade 9 - Ms. Shweta Mehta

Grade 10 - Ms. Indira Rao

The Parent Teacher Association had been very active in all the activities of school. Its involvement made a significant difference in school. Its selfless commitment is incredible. The willingness to give freely their time and service is greatly appreciated.

Presented on : 13th June, 2024

“A Dream Become A Goal When Action Is Taken Towards Achievement.”

Greetings to all Garodians,

I feel a great sense of pride and gratitude for the journey we had embarked upon together in the academic year 2023-2024.

This year had been unlike any other years filled with challenges and triumphs that highlighted our resilience and determination.

We believe in providing quality education to our students and mould the young minds of achievers and leaders to become balanced, responsible, proactive and self-reliant individual.

We have designed our curriculum as per the NEP guidelines and also aligned it with the vision and mission set by our late founder Smt. Parmeshwari Gordhandas Garodia in 1969.

We pay tribute to their legacy and express our gratitude for providing us with this exceptional platform, P. G. Garodia School, to learn, to grow and to transform lives.

The objectives of our school is to provide holistic education that nurtures well-rounded individual who are not only academically proficient but also socially responsible and morally upright. We prepare our young ones to be ready for the challenges. We prepare our students to face the adversities and grow as a person having meaningful outlook towards life.

We have legacy of 54 years in the education field. Our school has always been radiant in academic result. We celebrate the accomplishments of our outstanding students as Prize Day. This occasion holds immense significance for our school community.

On this joyous occasion of '**Annual Prize Day**' we have amongst us, the chief guest **Mr. Raj Parikh**, Dermatologist and co founder of Pediatric Skin care brand Kidocent, An Alumnie of P. G. Garodia School, to felicitate and bless the outstanding students.

This saying holds true for our school as P. G. Garodia school **received Mumbai's top 20 ICSE School Award** where we held the **7th position** in the survey conducted by "**TODAY**".

P. G. Garodia school has also bagged the award for '**Outstanding Performance In Learning And Curriculum**' initiated by Free Press Journals.

My heart swelled with pride as P. G. Garodia School added another feather to its 'Hat Of Honor' with std. X board examination result.

I am extremely happy and profoundly privileged to present our detailed **Annual Report of P. G. Garodia School (ICSE)** for the year **2023-2024**.

We bid farewell to:

- 1) Latika Shriyan
- 2) Shruti Chhadva
- 3) Nishtha Kithani
- 4) Ruby Fernandes
- 5) Sushma Tamore
- 6) Jennifer Barboza
- 7) Sushant Navagirin
- 8) Preethi Shyam Sundar
- 9) Nishika Jhurani
- 10) Mitali Rudra

and welcomed:

- 1) Vaishnavi Bidwe
- 2) Dimple Kathuria
- 3) Amrita Vasantan
- 4) Shobha Vijay
- 5) Tanvi Shah
- 6) Preethi Shyamsundar
- 7) Praveen Pareek
- 8) Pooja Bajaria
- 9) Lavina Correa
- 10) Sony Ahuja
- 11) Lavanya Shetty

'Achievers are not born talented but they possess the 'I can do it' attitude.' – Gladys Bejani

154 students appeared and all were awarded the Pass certificate.

Top three students:

1. ANANYA PANDYA – 99%
2. KUSHAL BHANUSHALI – 98.20%
3. PRATHAM SHAH – 98%
4. DIYA MEHTA – 98%
5. EVA PADIA – 98%
6. ASHWATH VISWANATH – 98%

9 - 10	Imagica

EDUCATIONAL TOUR

Std.	Place
3 - 5	Khandala
6 - 7	Igatpuri
8 - 10	Baroda

Std.	Programme	Place
7 - 9	SIES Climate Ambassador Program	Mahim Natures Park India Meterological Department, Colaba
9	RBI Visit	RBI Monetary Museum

CO-CURRICULAR ACTIVITIES

'Creating Progressive Thinkers'

This creates progressive thinkers. Striking the right balance between the academics and Co-curricular activities, we make an effort to develop and nurture 21st century skills like active learning, out of box thinking, critical thinking, effective communication, collaboration, knowledge of life skills etc. Educators must focus on the child as a whole. The pedagogy caters to the physical, emotional, social and cognitive development of children.

Activities like – Yoga Day, Library Week, Youth parliament, STEM Learning and Mental Maths Week. Started with Bagless day activities for std 6-8.

Students appeared for various Exams / Tests and took part in different competitions:

GARBA CELEBRATION

Students of Std 6 to 10 celebrated Navratri by playing Garba. They all looked colourful and excited.

CANTEEN DAY

Students of Std. 9 and 10 sold home-made food to collect money for a social cause. The customers, students from Std. 1 to 8, bought and savoured the delicacies eagerly. The amount collected was donated to different NGO by the students. This event was modelled as a part of Financial Literacy.

Gurukul School – Sports Equipments

Enrich Live Foundation – 150 selfcare kits

Kamla Mehta School for the blinds - 150 selfcare kits

INTERACT CLUB

In July 2023, the Interact Club of P. G. Garodia was reinstalled, with office bearers receiving their badges from the Rotaract Club.

The appointed leaders were:

- Director of Environment: Vajra Karia
- President: Nivas Kotak
- Treasurer: Aastha Gajra
- Director of Communication: Daeewik Dhuri
- Vice President: Kyra Shah
- Secretary: Diya Shah
- Elected President: Vivaan Sareen

The Interact Club aimed to engage students from different grades in social activities, fostering a sense of community contribution and an appreciation for the world around them.

Throughout the year, the club collaborated with the Rotaract Club on various initiatives, such as **Wheel-Chair Dandiya, Tree Plantation drives, visits to Access Life Cancer Foundation, Beach Cleaning drives, and Peer Support activities.**

Overall, these experiences provided invaluable learning opportunities for all members involved.

TEACHER ENRICHMENT PROGRAMME

Sr No	Month	Workshop	Teachers	Topic
1	April	Subject Coordinator	Sneha Singh	History & Civics
			Vinita Promod	Biology
			Deepa Chandran	English
2	April	POCSO Workshop	Uma	POCSO
3	June	AISM Workshop by Mr Raman	Revathy & Neha Shah	Fun with Maths & Science
4	June	Principal Workshop	All Teachers	Effective teaching & learning Strategies
		Mrs. Mitali Rudra Workshop		NEP Guidelines
5	July	Grow your career by Upskilling and Reskilling	Havisha	Effective Classroom Management Strategies
			Kimberly	Innovative Teaching Methodologies for Active Learning
			Minal M, Lenceka, Haritha, Supriya, Deepa C, Swati D, Revathy, Riddhi S, Anju B, Bijal M Vipasha J, Urmila	Assessment & Evaluation Techniques for Effective Teaching in NEP era
6	July	Vissanji Academy	Dimple Kathuria	Expiscor 2023
7	August	Mrs. Mitali Rudra Workshop	All Teachers	Critical Thinking
8	August	Greater Bombay Science Teachers' Association	Anju Bherwani	Hands on activities in Science
9	August	DSO Workshop for PE teachers	Praveen Pareek	Sports
10	January	Workshop on AI & Robotics	Shalini, Haritha, Minal	AI & Robotics
11	December	English Language Teaching Pedagogies	Sunita Ganguly, Poonam	English Language

IAYP (Duke of Edinburgh Award) - International Award for Young People)

Our school is associated with IAYP. The Award Programme works for the Youth Engaging Society. It helps and enables the young people to develop sensitivity towards nature through various outward-bound activity. It develops empathy and respect towards self and others.

Adventure: Makes them sensitive to nature with outward-bound activity, offers fun and thrill.

Service: Builds empathy and youth feels for the society, they learn to give.

Skill: They become more confident and get necessary proficiency in the chosen field.

Physical Recreation: Helps all to be fit and respect ones body as well as mind.

Residential Project (Gold Level): Youth learn to live with a different community.

The lessons that we learn in IAYP are ours to keep throughout life. Also the moral values that we learn, while we set out to achieve a qualification and reflect a lot on our character.

The four requirements needed to achieve any medal (**Bronze, Silver and Gold**) are **Skill, Physical recreation, Service and Expedition.**

Expedition and Physical recreation: Rock climbing, Rappelling, Valley crossing, Commando Bridge, Ladder and Net climbing, Zumarung, many team building games etc.

Places visited: Karjat, Matheran

ANNUAL CONCERT

An adaptation of a novel – Wicked – “A SOJOURN IN MUNCHKINLAND” was held on 21st and 22nd December, 2023 at the School ground.

Students from Std. 1 to 9 participated as actors, singers, dancers and volunteers.

The highlight of the play was live singing by the actors.

The play was resounding success.

STD. 10 FAREWELL

“Every new beginning comes from some other beginning's end.” – Semisonic

The students of std. 9 and the Staff bid farewell to std.10 students on 28th March 2024.

PTA

“Together We Create a Community Where Students Flourish.”

The Parent-Teacher Association (PTA) is a vital organization that bridges the gap between parents, teachers, and the school administration. It serves as a platform for collaboration and communication, fostering a supportive environment for students' academic and social development. Through various initiatives the PTA 23-24 played a significant role in enriching the school experience for everyone involved.

The following were the members:

PTA EXECUTIVE COMMITTEE (2023-24)

OFFICE BEARERS

Chairperson	Ms. Ragini Malhotra
Vice-Chairperson	Ms. Aparna Jagasia
Secretary (Teacher)	Ms. Baljinder Kaur Grewal
Joint Secretary (Teacher)	Ms. Havisha Obhan
Joint Secretary (Parent)	Ms. Anjali Dalal
Management Advisor	Ms. Mitali Rudra

The committee walked and worked with the school being supportive in all our endeavours.

*‘Teaching is more than imparting knowledge;
it is inspiring change.
Learning is more than absorbing facts;
it is acquiring understanding.*

CONCLUSION

As I conclude my annual report, I would like to extend my heart felt thanks to my Managing Trustee Mr. Nishant Garodia for his unwavering support and guidance.

A special thanks to you, my dear parents, for entrusting us with your child's education and sharing your valuable feedback and suggestions with us in our pursuit of continuous progress.

A big thank you to my dedicated teachers, who worked tirelessly to deliver high quality education and empower our students.

Thank you to the non teaching staff and the office staff who played vital roles in the smooth functioning of school in the year 2023-2024.

A big thank you and congratulations to all my students for show casing excellent academic performance.

Together, we have achieved remarkable success this year and I am confident of the continued excellence of our school.

I look forward to the constant support and collaboration from everyone in the coming year.

Mrs. Ragini Malhotra

MYSELF

My name is Mitansh.
I am seven years old.
My favourite fruit is mango.
My favourite colour is yellow.
My school is P. G. Garodia (ICSE).
My favourite sport is cricket.
My favourite fruit is burger.
My best friends are Jiyaan and Harliv.
My favourite animal is tiger.
I live in Mumbai.

Mitansh Kalyani
Grade 1

MY FAVOURITE TOY

My favourite toy is LEGO.
You can make anything out of LEGO.
You can make dinosaurs, homes, buildings out of LEGO.
There are dots called studs.
There are also stud shooters in some sets of LEGO.
There are detachers so you can remove one piece from another.
LEGO has different types of pieces.
LEGO is used to make anything!

Kaustav Desai
Grade 1

My best friend

My best friends' names are Dhruvin, Dhruvansh and Shivika. Shivika lives on 12th floor opposite to my house. Dhruvin and Dhruvansh are twins. They live on the ninth floor.

Diyaan Gala
Grade 1

Shivika, Dhruvin and Dhruvansh play football with me and my other friends. Dhruvin is training to be the best player. Shivika came on my birthday to get my bicycle. Dhruvansh plays my favourite game with me. I play in my backyard with them.

I really enjoy playing with Dhruvin and Dhruvansh and Shivika.

MY TRIP TO GOA WITH MY FAMILY

I went to Goa with my family. We enjoyed there. My family and I went on many rides like Banana ride and did paragliding. I saw many churches there and I went in one of them. The church was awesome. I enjoyed doing Party in North Goa and South Goa. It was very peaceful. I visited many beaches there. The beaches were very nice, and clean. Later, we came back home.

Darsh Chedda
Grade 2

MY FAVOURITE CRICKETER

My favourite cricketer is Virat Kohli. He is superb cricketer. He was born in 1988.

He has won 2 world cups for India, one in 2011 Cricket World Cup and 2024 T20 World Cup.

World Cup. He has made 50 ODI centuries. He has broken Sachin Tendulkar's world record of highest runs. He is friends with Rohit Sharma and K. L. Rahul. He has also won under-19 World cup for India in 2008. I love Virat Kohli and want to be like him.

Gahan Jhatakia
Grade 1

MY PUPPY

I always love puppies, one day my dad got me a puppy. I was shocked and he told me "This puppy is a girl and her name is Tara." I said "Tara? Who gives such a name for a dog?" Then for a few days I started selecting names for Tara. Then one day I came up with a name for her. "Cookie is the perfect name for her." My father told me, "It all makes sense. Her owners told me that she loves eating biscuits, so we should name her Cookie." And from then on Cookie and I both became sisters. We both still play together, we fight together but there is a big rule. We both love each other and that's what matters to me. Now we both are naughty too! I was happy and Cookie was happy, that's a win-win right? Oh! I forgot to tell you, she is my younger sister. My father lives in Delhi with my aunt, so whenever I have my holidays, I go to Delhi and spend time with Cookie. I love my puppy.

Trisha Raviteja
Grade 2

MY BEST FRIEND AVYANSH

My best friend is Avyansh,
We are friends since childhood.
The first trip we went by plane was to Dubai,
The second trip we went to Madhuban Resort.
We went to many places together,
But the latest one was breathtaking one, a sight seeing
of a lion and its pride at Gir.

He gave me a cute teddy and a
sea shell necklace from Goa,
He also made home made
jewelry and gifted me.
In Dubai, we went to Glow
Garden, the aquarium and many
more places,
In Gir safari, a lioness came next
to us and we saw many animals over there.

Jinaaya Karani
Grade 2

MY BUNNY

I have a pet rabbit. Her name is Bunny. She is very cute. She had a skin infection but now she is alright. After school, my sister and I play with her. Sometimes Bunny sleeps on my sister's lap. I feel very very happy when I see her. She was in a small box when she had come to my home. She eats carrots, tomatoes, apples, pomegranate, coriander and all the green leafy vegetables. Now she is not with me because of her sickness. But she is alive and has now turned into a three year old girl Bunny.

Jianna Thakkar
Grade 2

MY MOTHER IS THE BEST

Mother has brought me into this world. My mother is the best. Her name is Khushbu and her age is 34. She is kind fantastic and gorgeous. I am so lucky that I got such a nice mom. Her favourite food is 'pani puri'. Her favourite dress is sari. Do you know that when I do not like any of the vegetable dish, she just surprises me by baking my favourite vegetable dish? My father also works hard for us but he gets rest on Sundays and other holidays. But just think of our mothers! They don't get rest at all. They have to work 24/7. If we have cold cough my mother

gives us medicine and takes care
of us throughout the day and
night also. My mother is a nice
riddle master too. She allows me
see general knowledge based
cartoons. I sincerely request all of
you to respect your mother. She is
like God on Earth for us. I love my
mother so much.

Mahira Chordia
Grade 2

MY CYCLE AND I

A few days ago, I wanted to practice riding a cycle. I went to my mother and asked, "Can you help me practice cycling?" My mother said, "Okay," and we bought a new cycle. I started practising, and after an hour, I fell down. My father came and put a bandage on my knee. I practised cycling for more five days. Then I told myself, "I will practice harder." I practised nine times and the tenth time, I was about to fall but I finally succeeded!

Naisha Vaykole
Grade 2

MY FAVOURITE TRIP

My favourite trip was to Kerala. I went to Kerala by flight. Then I went to the capital city of Kerala, Thiruvananthapuram. We stayed at Club Mahindra.

After that we went to Jatayu Earth Centre, where I saw the real footprints of Lord Rama.

Then I went to see Kathakali Dance, martial arts and we also did zip lining.

It was my first experience of Zip Lining and I enjoyed a lot. Then we went to Coconut Lagoon, the biggest resort. I saw many different birds there.

Then we went to Jungle Safari,
there we saw animals like the
Hippopotamus. I went on an
elephant ride, ate ice cream and
saw the Indian Niagara Falls. It
was raining that day at Munnar
and we ate Maggie.

Thereafter we went to Cochin
where we did some shopping and returned to Mumbai
with sweet memories.

Mehaan Shah
Grade 2

MY PREPARATION FOR HOGWARTS

One night I was sitting alone in my living room, when suddenly an owl arrived. I was scared but it had a letter tied to its leg. I thought to myself "It is a messenger owl so it shouldn't do any harm". With trembling hands, I went towards it and untied the message and the owl left. I slowly opened the envelope and found two separate envelopes inside it. I opened the bigger one and it said 'Hogwarts'— my dream place! I couldn't believe my eyes.

The letter told me to go to a place called the Leaky Cauldron. So, I took my phone and set off. After a few hours, I reached the Leaky Cauldron. There they told me to go to the second cubicle from the left and stand on the first square from the right and press the Blue button. I did so, and it took me to Diagon Alley. Diagon alley was like the marketplace of the magical world. First I went to Gringotts, which is the bank for the magical world, to get my money. With the money, I bought all the things required for Hogwarts including potion ingredients, a wand and an owl . I was all set for my magical journey now!!

Sarthak Anush
Grade 3

MY HAPPY FAMILY

My family is the best family in the entire world. There are 20 members in my family and everyone loves me. My mother is multi-talented. She is a house wife, She helps my father and my grandfather in our family business and she also helps me and my younger sister with our studies. My dad is the owner of our company 'Pack Well'.

I love my grandmother too. She has complete faith in God a lot and is a very religious person. She buys us whatever we ask for. If I have any problem, then I convey to her and she offers me solution. She tells us meaningful stories at night.

I truly admire my grandfather. Even at the age of 67, with diabetes and an artificial leg, he still goes to office everyday and works full day. I have a cute younger sister Nirvi. She also studies at P. G. Garodia School in the Pre-Primary section. She loves me a lot. I have a happy and a loving family. I thank you God for giving me such a lovely family.

Nami Damani
Grade 3

KICK OUT THE BAD HABITS

It is a known fact that all of us have some bad habits in us but we are not trying to remove those bad habits from us. We should inculcate good habits in our lives. We should try to improve ourselves. Many of us indulge in pushing each other, pulling each other, etc. The main thing we need to control is our anger. If we don't control our anger then we scream, shout and do many things that may harm us as well as others. My parents tell me that whenever you get angry, happiness will evade you and you would never be able to stay at peace. It is only loving, caring and sharing that will make you happy forever.

Prisha Kothari
Grade 3

MY DREAM IS TO BECOME AN ARTIST

I love to draw, paint, colour and sketch. When I was two years old, I drew a perfect smiley for the first time. I also tried to make a perfect star and I succeeded in it at the age of two and half. At the age of 3, I learnt to draw every single shape. I was very happy. After 2 years, I learnt to draw some difficult sceneries. After some months I learnt many more things like human figures and 3D shapes. After much improvement, I learnt to make many beautiful canvas paintings. At the age of 8, I have 3 canvas paintings made by me. This was my journey till now. I will work harder and improve more as I want to become a famous artist some day.

Jia Doshi
Grade 3

MY DANCING COMPETITION

My favourite hobby is dancing. I love dancing. My parents had sent me for a dancing competition. There were many children at the competition. When I saw everyone dancing so nicely, I was scared since all the children were dancing so well. I thought that I will not be able to win the competition.

I was feeling nervous while going on the stage, but then my parents encouraged me before my performance. I thought of changing my mind and backing out as I was feeling nervous. It was my chance to go on the stage now and I gave it my best.

Finally, it was the time to announce the winner and to my

Myshaa Mehta
Grade 3

surprise, I was declared as the winner and I actually bagged a gold medal! I was the happiest person at that moment, and this boosted my confidence to do what is best for me.

HOW I LEARNT GYMNASTICS

I started learning gymnastics at the age of 6. The first day, I was very nervous and excited. When I was in the 'Basics' level, my teacher was Shahin ma'am. I started practising a front roll. After few days of practising multiple times, I perfected it. Then further I started to do a 'Cart-wheel' and 'handstand roll'. Finally, after many days of practising, I got it right. When I turned 7, I shifted to the mini-advance stage. I kept practising my elements every day. I learned 'Back-walkover', I kept practising each until I got it right.

I was selected for the gymnastics competition, my very first. I got my sequence. I practised it every day again and again. Finally, it was the day of competition, I was nervous. I was selected for floor gymnastics. It was a great experience for me.

Later, I shifted to the advance batch and I started practicing few more elements like toe-turn and leap jump. I now practice these elements on a balancing beam. At the beginning, I used to fall every time I tried, but I would never give up. This is how I learnt gymnastics and I shall continue to practise more and keep doing it for many years to come.

Rutvi Tawade
Grade 3

DETERMINATION

Everyone wants to achieve something in life—whether it's becoming a sportsperson, a singer, or a dancer. For example, I want to be a gymnast, while some boys dream of becoming footballers.

You must have heard the story of Dipa Karmakar. At first, she threw lots of tantrums, but she overcame her fears and pursued gymnastics. She went on to become one of the few gymnasts to successfully attempt the Produnova vault.

Even I was scared when I first started gymnastics. But now, I can do a cartwheel, and my friend Zara can even do a one-handed cartwheel.

So, how did they overcome their fears? They overcame their fears through determination.

Even though it required a lot of hard work, Dipa didn't give up. She was focused on winning medals and becoming the best. When Ashish Kumar won the first

Anaya Patel
Grade 3

medal for India in gymnastics at the Commonwealth Games, Dipa was inspired by his achievement and became determined to do even better.

Similarly, icons like Messi, Sania Mirza, Virat Kohli, and PV Sindhu also attained their goals through determination.

NEVER BACK DOWN.... NEVER GIVE UP.

So this quote "Never back down.... Never give up" is said to children all over the world. It means that if you are not good at something but you have the passion for it, you should not give it up. Instead you should work harder and practice more to be the best. Let me tell you my story. In August 2022 I had just joined B. S. Pasi and I was a newbie in football and the YPL was coming up. I wanted to join but two other people also wanted to join it. There was room only for one person. So our coach said, "I am going to observe you for 3 months. Whoever performs the best will go to the YPL. I was the youngest out of them. But I practised hard and the day of the selection finally came. My coach announced "Ved is selected." I was very happy! Although we did not win, at least we got to the quarter finals.

Ved Tharani
Grade 3

MY FAVOURITE SEA ANIMAL

My favourite sea animal is the star fish because in the sea for me, it is the most beautiful animal. Star fish are of many types like small, big and to me some look like colourful pom poms and that's why I like them so much. I wish that, I could be a star fish for a day and explore the sea and other animals in it too! But not shark huh! Else if I go to meet Mr.Shark, he may eat me as his dinner!. If he manages to eat me, how will I explore the sea and its animals!

I truly hope I get to go on my sea adventure some day!!

Pearl Doshi
Grade 3

BEAUTY OF NATURE

Nature is very beautiful and we should always appreciate it. Nature has always given man what he needs, but never asked in return. Life starts with nature. For example, when we first open our eyes and see out the window, look

Daksh Sancheti
Grade 5

at the true beauty of our surroundings and admire it. When we die, we get buried in the ground — we give nature the nutrients it needs to thrive. Again, it ends with nature.

Nature is everywhere, but personally I think along the way of growing up, we forget to perceive the true essence of it's beauty. Sometimes when we feel low, we cry and that is okay. But one thing will never leave us — nature. I think when we feel low, we should just admire our surroundings and everything will be fine. Which crying person does not smile looking at the moon?

Whenever you feel low, just remember, even if all of your friends leave you alone, Mother Nature will always, no matter what the cost, be by your side. It teaches us virtues and lessons, like 'Nothing is perfect. Even the moon has craters.' It reminds us of the beauty we have in ourselves, and helps us cherish it to the core. So, I feel like we should give back to nature after it has glorified our life for us. We all know the story of The Giving Tree, do we not?

PERFECT HUMAN

How is a Perfect Human made?

There are many Humans in the world, but to make a perfect thought for people and kindness and grateful for things he has got.

In this day the humans become angry and arrogant very quick for small things but I advise everyone who do this please stop it and become elegant and gentle. if you want to be a perfect human think before you speak that you don't hurt anyone with your words.

If you want anything don't steal it ask or do hard work to get that. we should always do our work on time & do not wait for tomorrow.

We should always respect our teachers & elders. The behaviour you give comes back to you.

Darsh Mahadik
Grade 5

THE WORLD BELOW US

We all know how we are polluting the ocean but we never try to stop ourselves. We never know what one plastic bottle less can save one's life. There are many animals who are struggling due to the pollution.

Animals like Sea Turtle, Manta Rays, Whale Sharks, Tiger Sharks and many numerous species. We always think of ourselves and never think of the well-being of the environment.

Dhyana Palan
Grade 5

The Great Barrier Reef is getting smaller day by day and it won't take long before it disappears into the Blue World.

The prose are very limited but the corns are as much as the sea itself. So, let's pledge to save the Blue World and the endless creatures in it.

MY CLASS

Before 2023, we were all strangers, but by March, we became a lively group of 40. Everyone was excited to meet our class teacher, and her name brought smiles and a sense of comfort to our faces.

By the end of April, we had already formed strong and meaningful friendships. At times, when we felt bored in the classroom, we would escape to our "second home"—the third-floor washroom. It quickly became our little getaway, filled with laughter and whispers.

Sometimes, during periods, the feeling of uneasiness crept in. But we had our own way of cheering up—we would enjoy delicious, cheesy treats during breaks, sharing them among friends. PE periods, however, were our ultimate favorite; we would eagerly wait for them all day long.

As students, life is full of challenges, but together, we've learned to face our fears, enjoy the journey, and create cherished memories to last a lifetime.

Dhiaan Kalyani
Grade 5

LIFE STORY OF CRISTIANO RONALDO

Born on 5th of February 1985, the famous legend Ronaldo is the star player of the Al-Nassr club. We all now how famous he is, but, do we know about his life journey? Let me tell you all about it.

Kunjesh Gandhi
Grade 5

Ronaldo was born in a very poor family in Funchal Madeira in Portugal. He was an average student in academics but was excellent in sports, especially in football. In 1992-1995 he played in a youth training academy and club called CF Anorinha. While studying he used to support his family by sweeping streets. On 14th August, 2002 he played his first official match. And, yes, it was the match when the legend scored two goals and his first career goal. He also won the Portuguese Super Cup 2002. In Sporting Lisbon, he scored five goals. In 2003, he joined Manchester United. In 2009, Ronaldo joined Real Madrid and scored 450+ goals and provided 150+ assists. He won 4 Champions

leagues, 3 Club World Cups, 3 UEFA Super Cups and many more trophies just in Real Madrid. In 2018, Ronaldo joined Juventus and continued to score more goals to make new records. In 2021, he joined his old club Manchester United. In 2023, he joined Al-Nassr Club. As

of today, with more than 900 goals in his career, he is the top goal scorer of all time. Undoubtedly, Ronaldo is the legendary player in the history of Football, and will continue to remain the GOAT of football with Messi. Thank You!

MY HOBBIES

My hobbies are drawing and reading. In my free time, I usually read or draw. Whenever I am frustrated, I draw, When I am bored I read.

Some of my favorite authors are Jeff Kinney, Sudha Murthy, Ruskin Bond and Rachel Renee Russell. The books I have enjoyed the most are Diary of a Wimpy Kid, Dork Diaries, Geronimo Stilton and Thea Stilton. I feel relaxed when I draw. My best friend Saumya also loves drawing. My most favorite drawings are 3D drawings. I always love to recreate comics. My favorite series of comics are Tinkle, and the most loved character in Tinkle is Suppandi, Super Weirdos and Shikari Shambhu. Most of the time I love to make horror stories with my friend Kavya. If you ever feel bored, pick up a hobby like reading and drawing.

Shravya Suvarna
Grade 5

THE MAGIC WAND

Once upon a time there lived a very poor family and they had not eaten anything since a few days.

Shanaya (1st daughter)-mom we don't have any money to eat anything what are we going to do?

Jessica (2nd daughter)-yeah, mom can me and Shanaya go find some work to do?

Mom – okay! But be careful girls.

Jessica – alright mom.

Jessica and Shanaya both went walking and they came across a forest. There they saw a fairy named Tinker.

Tinker(fairy) What are u doing here?

Shanaya – We are here to look for some work as we don't have money and we are starving with hunger.

Tinker – here is a wand, it grants any wish you want but be careful to not overuse it or it will get out of control.

Shanaya – Thank you so much, we really appreciate it.

The girls happily go home and soon they started granting wishes that they needed like food and more but later they started overusing it.

Shanaya – This is more like it.

Jessica-Yeah, this is fun.

Suddenly, the magic wand turned them into animals.

Jessica- Oh No! What happened?

Then Tinker the fairy appears.

Tinker – I told you not to use it too much, Now face the consequences.

Moral -Listen to others and don't use too much of something!

Netra Patil
Grade 5

MY TRIP TO KHANDALA

One Day at school our Class Teacher gave us a paper and ask to get them signed by our parents. I asked my friends that what was this was all about. One of them said excitedly, "It may be about the picnic that is sponsored by the school". I asked my mother, will you let me go for the trip. She relented first but after much deliberation with other parents she agreed to let me go. I waited curiously for that day to come

Finally, the day arrived. I woke up by myself without the alarm. I got ready and reached my school in a hurry. I met my friends with whom I was going to share the room. We sat in the bus and after 3 hours of fun and dancing, we reached our hotel. We made our group leader and went in our rooms. Then we changed and went for disco party with our teachers. Tired, we rushed to eat. The food was scrumptious. Then all children went to their rooms. Can

you believe that night we slept at 4 o'clock in the morning.

The next day we didn't wanted to get up, but we had to. We ate a delicious breakfast and went to see the wax museum. Then we came for lunch at the hotel and played an exciting game of treasure hunt. My group was almost going to win but before us my friend's group won. Its always not about winning or losing. The main thing here was the fun which had a lot. At last, we left for our house.

It was really the best trip I had ever and I wish I would get a chance of going again

INTERNATIONAL BOOK FAIR

I visited an International Book Fair held in Mumbai. There were many books and novels. I saw many poets and writers such as Ruskin Bond, J.K. Rowling, Jeff Kinney and Bryan Smith and went to them to take their autograph. I bought 20 books for myself and some for my sister. It was a lovely experience and I had a whale of time at the Book Fair.

MY GRANDMOTHER

Grandmothers are always working, from day to night and night to day. My grandmother is just like an angel from heaven. At her house, she makes me feel more comfortable than my own house.

Whenever I go to her house, she spoon feeds me like a toddler, but that is grandmother's love. Multiple times we tell her to take rest but she loves to work. She is a restless person. Always, when I go to her house, I feel like I am going to my second mother's house. My favourite drink, green tea is always ready as a treat from her. She is a restless person without sleep and always fresh. A super loving person like her is a gem from Earth and pearl from heaven.

Her most common talk with me is her spiritual stories regarding this temporary world and how to attain liberation just like Lord Mahavira. She has shared her life with everyone, her siblings, her friends, my grandfather, my mother, uncle, and us. She is always working, worshiping God and helping us like a true kind person. I am really sorry if I said or did something wrong to her. I love her.

STAR GAZING

My brother and I sit out when it's hot at night.

We watch the sky and at the stars shining bright.

He points his finger here and there.

Pokes me and says,
"Look, it's the Great Bear."

I try to see how it can be!

A bear! But it's just stars to me!

"Come on," says my brother.

"Those are his toes."

"And there is his head, and

Arnav Kedia
Grade 6

can you see his round nose?"

I sit and stare, and stare and stare.

And then I Start to see that bear!

Note: The above was written during last year's winter (then Grade 6D)

'THE BLISS OF AIR CONDITIONING'

A life saver in summer
If it doesn't work, a real bummer
It's like a spark
In the dark

I love its cold air
Because the heat I cannot bear
I can rely on it when its hot
But its not turning on 'what!'

For the whole world
It's a necessity
Because it's a pearl
In the ocean city

It's cold air spreads a soothing tune
Gives comfort, like a cocoon
The breeze we're savouring
The bliss of air conditioning we're favouring

THE HERALDING SUN

Let me start with a question. What is the first thing that you see when you look outside your window after waking up? None other than our very own Sun. The Sun is a source of energy. It gives us Vitamin D. And if we capture solar energy in solar panels, we can produce enough energy to last forever! Other than that, the Sun is considered as a symbol of starting in all faiths. The main reason for this is that when we wake up everyday, it's a new start for us. And we start the day with the Sun. In Hinduism, when we start a new thing like a new job or buy something new, like a new house, new office or even a new car, we first worship the Sun God. Even in Incan and Mayan faiths, the Sun is a symbol of power and a new beginning. If these Faiths believe in the power of the Sun, you can too! Here are a few tips to start using the advantages provided by the Sun.

-Wake up early every morning. This will help you to be fresh the entire day.

-Study outdoors and, if possible, do not study in shade. The Sun Helps stimulate certain nerves and improves

Vihaan Shah
Grade 6

concentration.

-Morning walks under the Sun help maintain your shape and freshen your mind.

These tips can help a lot under stressful conditions. I hope these tips help you in your daily life.

Thank You!

THE TREASURE OF HAPPINESS

Where is the little boy?

Who was playing in the mid-day spring

I could see the immense joy on his face

As he danced away with grace

With no stress or worries

His sadness is what he buries

Deep inside the chambers of his mind

The treasure of happiness is what he finds

Preyoshi Jain
Grade 6

TURN OFF THE MOBILE

My parents get angry on me

When they see me

Watching videos on the cell phone

So, my mother says change your habits

Once I was going home

Fidgeting with the phone

My mother asked me

Where are the house keys?

I am drilled doing my homework

But absolutely not while using network

And when my mother finds it out

Says that your friend will leave you out

My father warns to stop watching

Or he will smash the mobile

My mother tells me stop being lazy and start notching or you will differ from others

I like to watch sports the most

To watch it while eating toast

So, my room looks and smells like a mess

And much, creasy mess

I often use Facebook

But my mother offers me a book

She tells to get a tube

But I am still busy watching YouTube

A JOURNEY INTO THE HEART OF ADVENTURE

In a world filled with routine and predictability, the attraction of travel and adventure gestures, going on a break from the ordinary and plunge into the extraordinary . Beyond the comfort zones lies a realm of discovery, where every step is a dance with something unknown.

Embarking on a journey doesn't just mean reaching on a destination, but its about the experiences woven into the path. Adventures are the threads that stich together the tapestry of memories, creating an account that transcends the ordinary. Whether its about traversing dense jungles, exploring the bustling markets in the foreign land, or jump off a cliff into a river etc . each adventure is a chapter in the book of life. Travelling and adventures allow us to shed the leaves of familiarity and embrace the unfamiliar in us. The thrill of not knowing what is going to come up next, and energizes the spirit of exploration. It is in these moments of uncertainty when we find our truest selves, strong and flexible. Every moment and every adventure is a splash of color in our life. The soothing sound of oceans, the fluffy clouds, whispering winds or the beautiful sunrise on the top of mountains. These turn out to be the treasures showered upon an adventurous soul like me.

The bonds made during travelling are some like no other. Strangers become companions and conversations flow effortlessly like a river. As we navigate the unpredictable terrain of life, the memories of adventures are the ones that sustain us. They become the stories of life, or be the antidotes that bring smile and the petrol that leads us forward. Travel and adventures are not just escapes for some days, they are the essence of life lived to the fullest until your last breath. So pack your bags and step into the unknown adventure of your life, and let it began!

ADULTING

Now, what would you say adulting is? Getting no help from elders, doing everything yourself? Adulting is when you are out of your 'child' era and are entering the hard phases of life. Yes, it is a little scary at first, but it gets better eventually. Responsibilities and burdens come rushing our way.

Adulthood does not mean roaming with your friends till late night and the feeling of doing so. It is how we handle ourselves and get out of our comfort zone into the real

Jiya Thakkar
Grade 9

Akshara Bhanushali
Grade 9

world. Our parents have kept us in that one tiny comfortable bubble which is now off to burst. That one bubble which kept us stress-free for so many years. Nothing about the outside world is scary but handling yourself in that world with all those headaches is tough to handle. Our parents made us so confident and fearless even if a shark is on its way to get ahold of us. That spark of maturity in us may prepare the shark into thinking to not chase us as there might be a shiver of sharks which would have worked hard for that fish to find its own way into the sea. One of the most important steps that prepares us to turn into a shark is learning to say NO. This 2-letter word has saved so many people from horrible nightmares. At the end NO MEANS NO. Pushing yourself to do your best. Keeping faith in yourself. Using all these little headers can make you unbeatable even in the outside world. When a seed is sown, it finds support from the roots and eventually by nature. But when it gradually evolves with its surroundings, nobody but itself can push into its own self to grow. Similarly, the plant to be grown here is entering adulthood leaving behind all the support and being independent. Who knows this seed could become one of the most beautiful trees with so many fruits in the area! You never know destiny has planned for you in the future. A fish or a shark.

FRIENDSHIP; RAW AND BEAUTIFUL

I have this one friend of mine,
who's quite close to me
and knows almost everything about how I feel
and what I do.

We've been friends for a while now,
she hangs out with me, talks to me,
and a thing I like about her is that
she always gossips with me.

But lately, we've been off.
She argues with me,
talks bad about me,
makes me feel worthless,
makes me feel insecure,
makes me emotionally and physically hurt.
Is this friendship after all?

Whenever I eat pizzas or burgers,
she tells me to eat salads instead.
Whenever I laugh,
she tells me to hide my crooked
teeth.

Whenever I feel pretty,
she tells me about all the curves
and burns I have.

I don't think I can remove her
from my friend list,
because that friend of mine, is me.
I stop myself from feeling pretty,
I stop myself from eating all the delicious dishes,
I stop myself from laughing.
Why, you may ask.
It's because, I'm me,
and nobody else, except me.

Sharenja Jayadev
Grade 9

I AM A TEENAGER

Being a teenager, as most people presume, is 'easy'. But let me tell you, it is not. The phase between a child and an adult leads to confusion, distress and a conflict of emotions that not many except me can reciprocate. I am a teenager, unaware of my surroundings.

Sometimes the burden of pain that I carry on my back seems like a lot to handle. Coming home after a long day of school only to remember that you have a complaining younger brother; books left to be completed; loud noise coming from utensils clattering in the kitchen and a messy room to clear, is none other than a hectic burden to take care of. I feel dismayed knowing that if I would have done all this before, it would not render a problem right now; but it is just my recklessness. I feel like no one understands me. I feel neglected, like a misfit who is always kicked out due to groupism. Wherever I go, I feel like I have eyes around me watching and judging every move I make, which is indeed scary to a self-conscious adolescent.

I long for care. I long for a friend who would just be around and notice the way I text. To know when I am not

okay, and to just say "It will be alright. I am there for you." I do not want to rely on people, but I do. How contradictory right?

It is hard to accept myself. To accept that I am not one of those people who will be awarded for having outstanding ranks or excellent language is challenging.

It is difficult and painful knowing that I stand nowhere.

I try to escape this feeling everyday. Listening to music, going out for walks alone, or just sitting by the window looking at the stars helps me let go of these thoughts. The silence consumes me, and that is when I realise that maybe I do not need people after all. Maybe it is me who can make myself stronger. It is me who will be by my side. It is me who will give me the love I need. I do not need others' opinions to define who I am. I will be a better version of *who* I am, and not *what* I am.

After all, if love is such a beautiful thing, why not do it to yourself?

Ishika Sanchetti
Grade 9

A SENTENCE TO REMEMBER

“Winners never quit, quitters never win”. It is said by a wise man who remains anonymous, and I would like to expound myself on this saying which has been the motto of my life. The journey starts from the bottom level. Taking the first step is what is needed to start the journey, many think of themselves to be inferior and become hesitant to take the first step but as it is said, “small steps lead to beautiful destination”, these smaller steps that need determination and perseverance, have the ability to make a trial worth taking. One should never be overconfident. It is often said “not to hatch the eggs before the chickens come out”. Boasting a great deal without any planning and preparation, often make our

decisions go in vain. Nobody knows, who is going to win or lose, but a person who never quits already has won in his battle, never quitting can make us reach exotic levels, even if we fail at times, never quitting makes those chances to fly, again worth taking. Lastly, I would like to say that having faith and belief could make us do wonders. Quitting is not a compulsion, it is an option therefore, think twice before you take decisions.

BINGE WATCHING BUCKET LIST

A binge-watching bucket list-an ultimate list of every person, it includes all your favorite shows which you wish to watch, for me i could have an unlimited list, a never ending one. Watching television is a part of my everyday lifestyle, it gives me thrill to watch something new every day

I can't decide which would be on my top list, a year ago my 1st show i wanted to watch was friends, a show literally every one either has watched or wants to watch, a show about the life style and journey of 6 friends coping and living through fun and hardships together, never leaving one another

Next on my list was Radha Krishna, where it is a concept of Krishna who is an avatar of lord Vishnu as his eight incarnation and Radha who is an avatar of goddess Laxmi as metioned in the scriptures this story tells us how pure a love can be and the beauty of their love portrays so much beyond, it teaches us the purity and

maturity in their relationship, and how Radha sacrificed her love for Krishna, It further demonstrates us how a marriage can be so beautiful.

Third on my list was squid game which became a instant hit and popular from the very second it was released. This show was about a game which lured people to play a game for a large sum of money but those who were not aware that when they snooze and lose, they lose their lives.

To conclude I loved watching these shows and a year ago they were on my top 3 list, the show Radha Krishna has taught me a lot and till date it is my favorite show, it has been a huge part of my life since a year and will continue to always stay in my heart

THE DIRECTOR'S CUT

How do the directors make film from books?
It's just the Director's cut, they add some looks.
After fighting for the budget they have got,
They find some actors that are taught,
Roll, camera, action Says the Director,
The camera shoots the actors.
Start, stop, mistake, retake,

The shot has to be remade.
The Director edits the story to have some purism,
And to bring an end to plagiarism.
After a long strive to make the film,
It is released in front of people's realm.

Koushal Mansatta
Grade 9

BROKEN HEART OPEN MIND

Most of the times we are sad and our mind is blocked in a particular thing and we cannot think out about how to make ourselves happy on our own. We can think of new ideas with our sad mind and with our broken heart. If one leaves or when we get bad marks in exam or are scolded by a particular person we think the whole day about that thing and cannot get any idea to make ourselves fresh. We are happy most of the times but sometimes we become sad and our minds are blocked in that thing. We are not happy when something bad happens. When someone stays with us for a long time and then leaves us without telling the reason then we cannot blame them because we had done the mistake of trusting them and since now they have left us. We told them most of our things and shared them that what has happened with us or why do we remain sad most of the times then after knowing our whole life story they leave us without telling the reason and we cannot handle and we started

Krishna Talreja
Grade 9

blaming ourselves that why did we tell them. We can think with our broken heart and open mind.

LIFE ON SCREEN

While lying on your couch and stuffing the iconic dominos pizza in your mouth with the inseparable companion known as your phone while scrolling through Instagram you come across a picture-perfect morning routine and you decide to try it out. The next morning your greeted with a burned exotic pancake, a room that looks straight out of Jurassic park and a missed assignment deadline. You stand there bewildered wondering the same question like everyone else "it looked so easy online!"

Take an example of flawless models, impeccable actress or the lead in an Indian tv serial who manages her entire workload or family drama like it's a piece of cake. It seems almost unreal how social media paints a picture of this amazing life and goals to be achieved when here you are unable you find the missing tv remote without demolishing the entire house. They say the grass is always looks greener on the other side and in this multi layered world of social media we often fail to

acknowledge the cracked of pieces which are present. The anxiety, hard work, sacrifices that come along this package of glitz and glamour and mighty mansions.

Believe me, its good to laugh at the burned exotic pancakes, take a break from life and dance with headphones on pretending like you're in a Disney movie, set goals but fail to complete them sometimes, give up to stand back on your own feet and rock the world with a smile on your face. Because its okay to not focus on making every moment of your life perfect and to take every step with the motive to please others. Do things at your own pace but enjoy every moment of the path to your success. And always remember in a world of hashtags algorithms and followers, search for human connection.

Grade 9

THE PICK-POCKET

"Pardon!" the man exclaimed. "I really am so sorry!" he continued, gallantly stooping to pick up the fallen purse of the lady he had just bumped into. The old lady took it and smiled warmly at the apologetic young man, dressed in a crisp T-shirt, trousers, polished boots and an expensive-looking jacket. "Really", she thought as she walked away. "Such a polite man. Extremely rare, nowadays." She realised she had been walking too slowly, and might not reach home in time for lunch. She shifted her gaze to her extremely costly, shining silver watch and found it missing.

Meanwhile, the polite young man was fingering a sleek, silver watch. He smiled as he slipped it into his pocket. He was a professional pick-pocket; he had never been suspected, never been caught. As he came upon another street, his trained eye swept around, trying to locate a potential victim. He was in luck this time. A fat middle-aged woman was standing right outside a jewellery store, boasting to her friend about her newly acquired bracelet. "It is very expensive, you see," the woman was saying. "But then, I only like costly articles." The man smiled and looked around to see if anyone was keeping an eye on him. He observed a young girl wearing black glasses, folding her stick, as she felt the seat beneath her and finally settled down. "A blind girl," he mused. "She isn't going to keep an eye on me."

He proceeded forward, bumped into the lady and succeeded in scattering all her belongings. Having said his well-rehearsed apologies, he continued on his way,

richer by a bracelet. He was so absorbed in his thoughts, that he didn't realise when the blind girl walked right into him. "Oh!" the girl exclaimed, frantically feeling the person she had run into. "I am so sorry," she said, slightly ashamed, as the man gallantly handed her the items she had dropped.

"Poor dear," the man thought, walking away. "Poor dear." The blind girl turned into another street. She folded up her walking stick, removed the glasses and opened her bag to stow them away.

She smiled as she saw the watch and bracelet glistening inside it.

CYBERCRIME

Cybercrime is a pretty much well known topic in this generation. With the rise of advanced technology enters risks, scams, frauds, and other forms of cybercrime. The term 'Cybercrime' refers to the crime that is committed online using various

technological devices etc. People need to be apprised of this particular topic so as to stay safe. In the olden days bullying used to take place physically in fact it was really

Mahi Jethi
Grade 9

common and often not paid attention to. In today's generation electronic devices are more in use to converse and communicate instead of physically interacting.

From the stories I have been made aware about, of my near ones I've not only learnt how scary it can be but also about how it can impact a person both psychologically (mentally) and physically. Unfortunately some people are still oblivious about this term and definitely need to be alarmed about it. With more people, comes more trust issues in this generation and what not. Let me narrate an incident which recently took place, so as to justify the above. [As a third person POV]

It had all been quite calm yet overwhelming until her friend started acting creepy. They had met in real life in a conference that had taken place. She was surely uncomfortable but ignored it so as to keep their friendship intact. Friends don't really threaten each other even as a joke right?? She couldn't really bare it anymore.

Her friend apparently threatened and forced her to send him her private / personal images, if she didn't then she was warned that worse things would take place. It was late at night and she was gob smacked. What could she do? She did not ask for help as she thought she was mature enough to handle the situation, but that was the worst mistake one could ever make if put in the same situation. She finally sought help from her elders and was advised by them on how to proceed further. She did not share anything and reported her "friend" to the cyber-security/cyber-police. Oh did she feel lighthearted!

This is just one of the cases that took place, a lot more worse incidents have occurred. No one is safe. All we need to learn is to never trust anyone blindly and always seek help if have been put into such a scenario. And lastly, never share any of your personal information etc, to anyone on the net. Stay safe.

THE SAPPHIRES OF BOMBAY

Standing in the heart of the bustling country, the city of Bombay emerges like a beacon of hope admits the chaotic sea of buildings and honking horns. Bombay, the so called "commercial capital of India" houses the most famous monuments namely The Gateway of India and is home to the Bollywood film industry and some of the biggest fashion houses in the country.

As I step on the grounds of Bombay, the feeling of home surrounds my body thoroughly. I am greeted by a surge of cool air which carries a sense of anticipation as if knows about every secret location hidden on the streets of Bombay. The atmosphere is abuzz with a symphony of voices, hushed whispers, excited chatters and occasional bursts of laughter. Bombay is best known for a wide variety of food. Ghatkopar's most famous hub of food namely 'Khau Gully' is loaded with iconic dishes like 'Golgappe' originating from Delhi, 'momos' from Nepal, 'VadaPav' from Mumbai etc. These dishes provide a homely feeling that connects our soul to our bodies. Bombay has many tourists attractions as well such as The gateway of India, The Taj Hotel, Marine Drive, The Atal Setu Bridge, The Colaba Causeway etc.

Every Mumbaikar is meant to be a shopaholic. The Colaba Causeway, Alpha Market, Hill Road etc. are some of the most iconic shopping hubs. The Kala Ghoda Festival adjoins creativity as a source of inspiration, pleasure and happiness. The T2 or the Terminal 2 airport is the largest in the whole of India which carries out international flights. South Bombay is one place that teleports you back into the 80's which was the vintage era of Bombay. The dabbawala's act as link between food and the wide-awakened working class who work 24/7.

Bombay is truly a testament to mankind which unfolds the secrets hidden in every wall, every street and every corner of this city. The Mumbaikars are armed with nothing but their insatiable appetite for discovery and unwavering love for their nation.

HIM

I have a person in my life,
Who guides me about what is wrong and right,
He is always by my side,
May it be a fight or a ride!
He wants me to be strong, He wants me to be happy,
He wants me to be witty, He wants me to be chatty.
He has another job to do
To annoy and irritate me too

He is the reason I m a happy
sister,
Since it is none other than my
BROTHER!
He is the sunlight to my darkness
The picturesqueness of my
happiness, I will love him always
and forever, Because I know he
will leave me never!!

Twisha Maheshwari
Grade 9

THE DEPTH OF MY POEM

People say words just come to me
And perhaps they do,
They come in like tides of the sea
And leave their residue.

What you perhaps don't understand,
Is the very source of them,
They come from the deep roots of my soul and then in
my mind they grow and stand,
These thoughts are wild and fast..they can't be tame...

And what feeds these deep roots of mine, you ask?
Well usually books and music do the task.
But then there are times when I am near the gushing
water,
When the idea just hits me altogether.

But just when you feel you have
understood these verses of mine,
Dig a little deeper,
You might find something raw
underneath the string of words I
bind,
The slope is steeper,
And once you enter,
Echoes you will hear,
Of my thoughts and feelings combined,
Playing on repeat.

Sit if you must,
And climb out you can,
And once you do, you will discover,
That a remnant of the beings in that void will stay with
you forever.

Dhruvee Kapoor
Grade 10

RELIVE YOUR CHILDHOOD

Remember there was a time when,
A bursting balloon would make tears fall?
Does it matter to you now,
Or are you busy, too grown-up to care at all?

Remember when you thought you could fly?
But disheartened, you fell to the ground.
Yet, everyone around cheered you on for those three
seconds in air,
And those amused faces couldn't have made you more
proud.

Now although you're serenely soaring in life,
Your heart is still forlorn and uneasy,
For it seems everyone around you is pulling you down,
Determined to ruin your peace, imbued with jealousy.

Remember those days when you'd gape at fireworks in
fascination,
Booms and zaps through the window, so incredibly
dynamic.
But now when they burst, you just draw the curtains,
To those simple moments of wonder, you're now
apathetic.

Remember when you believed in tooth fairies, pixies,
and Santa Claus?
Had faith in God, prayers, and blithe happenstances?
But now you refuse to, or have no time to believe in
patience and hope,
Of faith and miracles you demand evidences.

Back then, the earlier the bedtime,
The sweeter were the dreams.
But now, the later the bedtime,
The more pleasurable the binge-
watching, it seems.

Remember there was a time, when
ten rupees were worth,
Of chocolates, merry-go-rounds,
cartoon-character themed pencils,
and joy in little things.

What once meant the world to you,
Now would it be disregarded as a mere nothing?

Hold on tight to your childhood, just as you did in the
playground, To those metal monkey-bars, which
perhaps have now gathered rust. Keep those innocent
images vivid in your mind's eye, For they remain as
good as new, while old photo books gather dust.

You can say all you want, but there's comfort in the
past, magic in memories,
It's a source of reassurance that will steer you through.
Turn around and look back. Do you see it?
You might have left your childhood, but it never leaves
you.

Although through the years,
You've witnessed immense change, and grown.
Keep your childhood alive in you,
For it can touch you in ways unknown.

Reya Shah
Grade 10

XXXXXXXXXXXXXXXXXXXX

We have often applauded many academic achievers, artists, sportsperson, and many more. Little realizing the amount of hard work and discipline that has brought about the change.

It is said that 'Life does not get better by chance but by bringing the change'.

This holds true for all of us at every phase in our lives. The challenges we face can be handled easily when the energy and attention is channelized in the right direction for our personal growth. We can carry out any task effectively when we set a goal and successfully achieve it. The first step towards the same is practicing mindfulness. Being mindful is about awareness of each moment and being engaged in what is happening in one's surrounding- with acceptance and without any judgement. This allows us to accept the situation as it is. Also the importance of self discipline cannot be undermined in acceptance of changes and reaching one's goals.

So let us all focus on gaining courage from all things we fear, Create discipline to get over our laziness, start learning to remove ignorance. And do not forget to enjoy the journey.

Stay blessed.

Teacher

A SLICE OF MY CHILDHOOD

Childhood is a beautiful part of one's life. There are no worries and no responsibilities...just lots of innocent pranks and lots of laughter. Each one of us has some special memories associated with it.

Just recently, as I was explaining a chapter based on communication in social studies, there was a mention of letters as a mode of communication and all the students laughed at this outdated and slow method of communication. However, it was the only mode of communication when we were kids.

This topic sent me down the memory lane and I shared an incident with my students.

It so happened that, as a child, I was a regular reader of a

popular magazine for kids titled 'Children's world' and in the summer vacation edition, there was a mention of a 'pen friend'. A pen friend is an anonymous person with whom you could communicate through letters and befriend them. It was mentioned that interested children could share their addresses on the magazine.

Intrigued by this new proposition, I sent mine.

A week later, I received a letter from a girl named Masha from Russia. I was truly elated!!!

Ms. Hema Iyer
Teacher

GRATITUDE

Gratitude is the thread that weaves together
the tapestry of our lives,
Reminding us of the beauty,
Love and kindness around us.

It is the whispered " Thank you"
to a stranger who showed kindness,
The warm smile shared
With our love ones,
And the simple joys that make our life wonderful.

Gratitude helps us to shift
our focus from what's lacking
To what we have in abundance,
It helps us to perceive a sense of contentment and
peace.

It makes our heart so light,
For all the blessings that
make our world bright,
For the laughter and smiles
That fill each day
And for all the wonderful
people who brighten our
way.

In gratitude's soft light,
We see the world more bright,
For in giving thanks, we find our hearts delight
A sense of peace,
That shines like our guiding light.

जीवन में समय का महत्व अमूल्य है । हमें समय का सदुपयोग करना चाहिए । जीवन की
दौड़ में बही जीतता है, जो एक लक्ष्य को निर्धारित कर मेहनत करता है और जो समय का
सही उपयोग नहीं करते हैं वे कभी सफल नहीं होते । जीवन में समस्याएँ आती-जाती
रहती हैं । हमें हर समस्या का समाधान ढूँढना चाहिए न कि उससे दूर भागना चाहिए । बारिश में चील बादलों
के ऊपर शान से उड़ती है जबकि दूसरे पक्षी पेड़-पौधों पर छिपकर रहते हैं । अतः जिंदगी में अगर कठिनाई
आए तो हमें सोच-विचार कर सही दिशा में कदम आगे बढ़ाना चाहिए ।

धन्यवाद!

परीक्षा

घूमना-फिरना हुआ बंद,
ऐसे पढ़ो, वैसे पढ़ो का नारा होने लगा बुलंद ।
परीक्षा आई, परीक्षा आई ।
टी.व्ही. मोबाइल से दूरी बनाई,
करना है दिन-रात पढ़ाई ।
परीक्षा आई, परीक्षा आई ।
खेल-कूद पर पाबंदी आई ।

चतुराई से अब करो पढ़ाई ।
परीक्षा आई, परीक्षा आई ।
क्या करें, कैसे पढ़ें? कि,
अंक देख सब हो जाए दंग,
परीक्षा आई, परीक्षा आई ।
सपनों को देना है आकार,
मेहनत को बनाओ अपना हथियार,
परीक्षा आई, परीक्षा आई ।

आजारपण

ऐ आई गं!
बर नाही आलाय ताप
पांघरूण घेऊन आता
कसा निघतो चूपचाप

जात नाही शाळेला मी
तु पण घरी थांब
पाय दाब जरा माझे
पुरे आता काम
जेवणार नाही आज

स्वमिक जैन
कक्षा - ८

मला बीनविटाच दे
मीसंबीचा रस आणि
गोड बिस्किट दे
पेपरमिंटच्या गोळ्या आणि
तींड झालय कडू
कसंतरी हीतय बघ

येईल आता रडू
धर्मामीटर लावू नकी
थंडी वाजतेय फार
काय म्हणतेस “ताप” नाही
अंग लागतय गार?

(संग्रहीत)

मैत्री

जिथे स्वार्थाच्या
उग्रतेचा गंध नसतो...
जिथे मनाचा
कलूषित रंग नसतो...

जिथे फक्त एकमेकांचा
अतूट संग नसतो..
ज्या नात्याला कधीही
कोणताच अंत नसतो

(संग्रहीत)

निसर्गाची माया

निसर्ग हा मित्र आपला,
आनंद देतो रोज नवा.
झाडे, फुले आणि हिरवी धरती,
सौंदर्याने सजलेली निसर्गाची सृष्टी.
नदीच्या लाटांमध्ये गाणं,
पक्ष्यांच्या सुरांत गोड स्वप्नं.
डोंगरमाथ्यावर ऊन-सावली,
हवा झुळझुळ, सुखाची लहर आली.

पावसाचे तेंब गालावर पडतात,
मातीचा सुगंध मनाला भिडतो.
सूर्य उगवतो सीनेरी प्रकाशात,
चंद्र चमकतो गूढशांत रात्रीत.
निसर्ग आपल्याला शिकवतो,
सहनशीलता, प्रेम आणि
एकरूपात,
त्याला जपलं, त्यांचं मानलं,
तरच आपण खरे निसर्गाचे बालक।

मैत्री : जीवनातील खास नातं

मैत्री म्हणजे आयुष्यातलं एक सुंदर नातं. ती दोन व्यक्तींमधील विश्वास, प्रेम आणि समजुतीचं बंधन असतं. शाळा असी, खेळाच मैदान असी किंवा एखाद्या कार्यक्रमात, मित्रांमुळे प्रत्येक क्षण खास होती.

शाळेत आपण रोज खूप मित्र भेटतो. एकत्र अभ्यास करणं, खेळांमध्ये मजा करणं - या सगळ्यातून मैत्रीचं नातं घट्ट होतं. खरा मित्र आपल्या चुका दाखवतो, पण त्याचबरोबर आपल्याला योग्य मार्गही दाखवतो. जो नेहमी आपल्याला आधार देतो, तीच खरा मित्र असतो.

मैत्रीचं मोठं वैशिष्ट्य म्हणजे ती मधीच वय, जात किंवा पैशावर अवलंबून नसते. ती फक्त मनातून होते. जेव्हा आपण उदास असतो, तेव्हा मित्र आपल्याला हसवतो. जेव्हा आपण अडचणीत असतो, तेव्हा मित्र मदतीला धावून येतो. त्यामुळेच मैत्री हे जीवनातलं सगळ्यात महत्वाचं नातं मानलं जातं.

खच्या मैत्रीसाठी काही गोष्टी जपणं गरजेचं आहे - प्रामाणिकपणा, विश्वास आणि एकमेकांचा आदर. जर आपण मित्रांशी खोटं बोललो, तर त्या नात्याला तडे जातात. म्हणून नेहमी प्रामाणिक राहा आणि आपल्या मित्रांशी विश्वासाने वागा.

आजकाल सोशल मीडियामुळे काही वेळा मैत्रीत अंतर येतं. पण खच्या मैत्रीत एकमेकांसीबत वेळ घालवणं महत्वाचं असतं. मित्रासीबतचे हसरे क्षण आणि आनंदी आठवणी आपलं आयुष्य अधिक सुंदर बनवतात. म्हणूनच, आपल्या मित्रांवर प्रेम करा, त्यांचा आदर करा आणि मैत्रीचं हे खास नातं नेहमी जपा. कारण खरे मित्रचूपलं आयुष्य आनंदी आणि अर्थपूर्ण बनवतात !

कविता

ती खळखळून हसते
आसू लपवते
प्रत्येक श्वासात ती फक्त प्रेम देते
असे का होते की सर्व काही तीच करते?
ती कधी आई असते कधी मुलगी असते
ती कधी बहीण असते कधी बायको असते
ती मुलांसीबत खेळते
ती आई बाबांची औषध शोधते
ती भावंडांशी मस्करी करते,
ती नवऱ्यासीबत मनसोक्त गप्पा मारते,
पण जेव्हा ती एकटीच राहते,
असे का होते सर्व काही तीच करते?
ती सगळ्यांची काळजी घेते
ती पूर्ण संसाराला सांभाळून घेते,
पण मग ती स्वतःकडेच लक्ष द्यायला विसरून
जाते.

असे का होत की सर्व काही
तीच करते?
तिच्याचमनातल्या इच्छा ती
मनातच दाबते,
तिच्या डोक्यातले विचार ती
स्वतःकडेच ठेवते,
कधीही गर्व न करता ती
गुपचूप बसून राहते,
असे का होते की सर्व काही तीच करते?
ती सर्वांच्या सुखात असते,
ती सर्वांच्या दुःखातही असते,
पण तिच्या सुखःदुखात तिच्यासीबत नेमकं
कुणीच नसते.
असे का होते की सर्व काही तीच करते?
ती गुणवती असते,
ती रुपवती सुद्धा असते,
ती काहीहि करू शकते,
कारण ती एक बाई असते.

EDUCATIONAL TRIPS [2023-24]

With a variety of career choices and increasing opportunities, students need to be ready to take up challenges and explore new avenues. Educational trips helps the students to think creatively and critically about the things they see and experience.

We have been arranging educational trips for students to have the opportunity to collaborate and interact in groups and connect with the real world. In the year 2023-24, students of class 6 and 7 visited Igatpuri, Manas resort and Coin museum and the students of class 8,9 and 10 visited Vadodara, Statue of Unity, Amul Factory.

All the students had a wonderful time, making learning memorable and meaningful.

INTERACT CLUB REPORT

In July 2023, the Interact Club of PG Garodia was reinstalled, with office bearers receiving their badges from the Rotaract Club. The appointed leaders were:

- Director of Environment: Vajra Karia
- President: Nivas Kotak
- Treasurer: Aastha Gajra
- Director of Communication: Daeewik
- Vice President: Kyra Shah
- Secretary: Diya Shah
- Elected President: Vivaan Sareen

The Interact Club aimed to engage students from different grades in social activities, fostering a sense of community contribution and an appreciation for the world around them. Throughout the year, the club collaborated with the Rotaract Club on various initiatives, such as Wheel Chair Dandiya, tree plantation drives, visits to Access Life Cancer Foundation, beach cleaning drives, and peer support activities.

Overall, these experiences provided invaluable learning opportunities for all members involved.
